Ulrich Klatte, has done it again!!

This man writes facts on krautrock, sixties psychedelic and progressive music in genere!!! And as far as I know he is the only one, with the painstaking research and hard work it takes to deliver these fabulous books he is the author of.

This time he has taken it upon himself to revisit & expand his "Cosmic Price Guide" It is an A-Z guide to rare and collectable Krautrock records, thus making it 100 pages thicker!! Yes I kid you not, its a MUST own!!

448 pages of said genre, to drool over (and you will!). Covering all from label numbers, current mint (vinyl) value

, full colour album cover pictures and album titles!!

I could wish for an all round band member line-up, well maybe next time?!

Great amazing work, Ulrich!!

All you krautrock, psychedelic & progfriends...go buy it, better now than later!!
